

OPE Dealer Council

[OPE Dealer Council Members](#)

OPE Dealer Council: NAEDA organized its OPE Dealer Council in 1994 in response to an increase in the number of outdoor power equipment dealer members. The council is made up of dealers and equipment industry executives who advise the association about issues involving outdoor power equipment dealers and the OPE industry. The council is structured into three committees: EXPO Programming, Public Relations and Marketing, Dealer Education and Training.

The council, which is represented on NAEDA's board of directors, plays a role in policy issues related to EDI, emissions standards, dealers' contracts, and warranty reimbursement from manufacturers to dealers.

The council also hosts NAEDA's Tech Center and sponsors dealer educational seminars at the annual [International Lawn, Garden & Power Equipment Expo](#) in Louisville, Ky.

To report information to the council or for additional information, write to NAEDA OPE Dealer Council, 1195 Smizer Mill Road, Fenton, MO 63026-3480, call 636/349-5000 or [contact NAEDA](#).
