### Emerald Golf Course

Designed to be fun for practically every player, the Emerald Course delights players with its carpet-like fairways, colorful foliage, and numerous vistas of the Pacific Ocean and Mt. Haleakala. Relatively few forced carries and kinder fairways are ideal for players who view golf as an enjoyable form of recreation rather than a grueling test of concentration and precision.

One of the more unusual features of the Emerald Course is the double green shared by holes #10 and #17. The green borders a 2.7 million gallon brackish water lake and is one of the most picturesque spots on the course.
